Lending Yield (\downarrow -0.3% QoQ)

Quarterly Cost of Credit Consolidated vs Bank Only

- · PPOP growth remains stable at 9.6% YoY but decreased by 3.9% QoQ, impacted by lower Recovery Income on a QoQ basis
- · Profitability metrics, ROA, and ROE declined QoQ by 10bps and 70bps, respectively, while CAR stood at 26.6% in 4Q24. NIM was flat QoQ, as Cost of Funds was relatively stable QoQ
- The strong growth of recoveries on written-off loans has led to a further decline in the Net CoC, which fell by 39 bps to 0.54% in 4Q24.

KEY FINANCIAL HIGHLIGHTS

Profitability Maintained Despite Elevated Credit Cost

-----	-----	--

- As of 2024 Kupedes disbursement declined 37.5% YoY
- For 2023 Kupedes disbursements, the best performance is from Refinancing of existing customers.
- Implemented the Following Strategic responses:
 - 1) Tighter Credit Risk Scoring Grade
 - Improve Pre-screening process by adding Family Registry and data from Telecommunication providers to screen risky apps usage
 - 3) Adjusted Loan Officers KPI
 - 4) Hired additional loan officers and BSA
 - 5) Limit loan limits by regional risk profile
 - 6) Tiering loan approval
 - 7) Reopen Regional Training Centers
 - 8) Tighter refinancing policy

*Average of NPL + Write-off as percentage of total disbursement in each quarter divided by average Month on Book of respective quarter as of 4Q24. Please note this ratio can fluctuate significantly as MOB increases, it is a picture in time, not a means to predict future performance. we are using this calculation to track asset quality since it's too early to compare NPL downgrades through 4Q24. *Average DG to SML used data of average downgrade at 6 MOB. The data changed from previous Quarters, as starting 4Q24 we used ever-default calculation for Avg. DG to SML

LOAN QUALITY – BANK ONLY

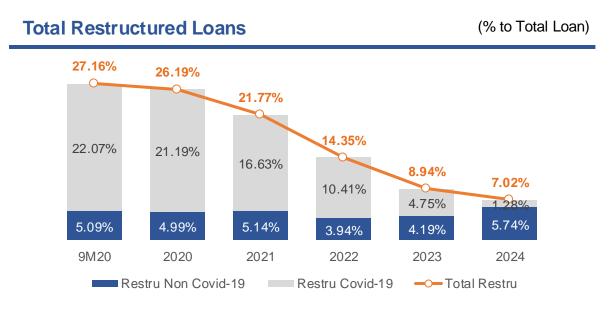

Loan at Risk Continues to Decline Coupled with More Adequate Provisioning

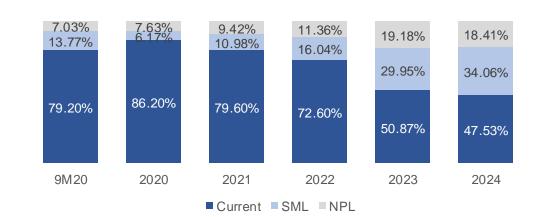

LAR & LAR Coverage (Inc. Covid-19)

Total Restructured Loans by Collectability

OTHERS

STRENGTHS AND CHALLENGES

Key Strengths

□ Provision Expense Improving in 4Q24

- Provision expenses improved as the CoC in 4Q was 2.76% as adjustments and lower net downgrades supported lower loan provisions.
 Micro Net downgrades to NPL improved 9.7% QoQ to Rp4.9Tn from Rp5.4Tn in the prior quarter.
- Non loan provisions reversed Rp731.0Bn helping to bring the total provision expense down by 20.6% QoQ to Rp8.7Tn. Recovery income remains elevated at Rp7.5Tn, supporting FY24 recoveries of Rp25.4Tn and a Net CoC of only 0.54% in 4Q24.
- Tightening of lending criteria led to Consolidated Micro loan growth slowing to 2.7% YoY, compared to 10.9% in FY23, and most recent vintage analysis reflects improved 2024 performance.

□ 4Q24 PPOP Supported by Premium Income and Higher Subsidiaries Contribution

- PPOP was supported by strong Net Premium Income growth QoQ, while Recovery income was slightly lower by 2.71% QoQ in 4Q24
- Efficient liabilities management resulted in a stable COF of 3.7% with Dec-24 exit COF of 3.48% as we increased CASA to 67.3% and LDR strategically managed 88.85%.
- Opex remains well controlled as it declined by 1.81% QoQ and CIR is standing at 41.59% in FY24, in line with our guidance for 2024.
- Subsidiaries continued to become larger part of our loan book as PNM and Pegadaian contributed 10% of our total loan and 20% of our NII

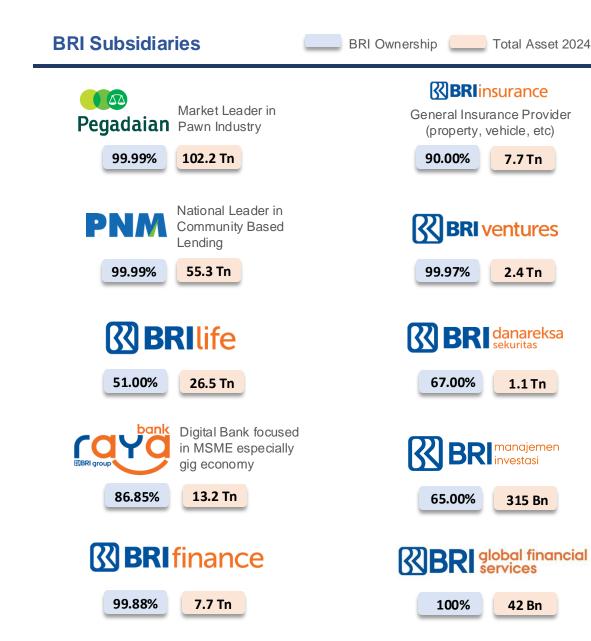

Key Challenges

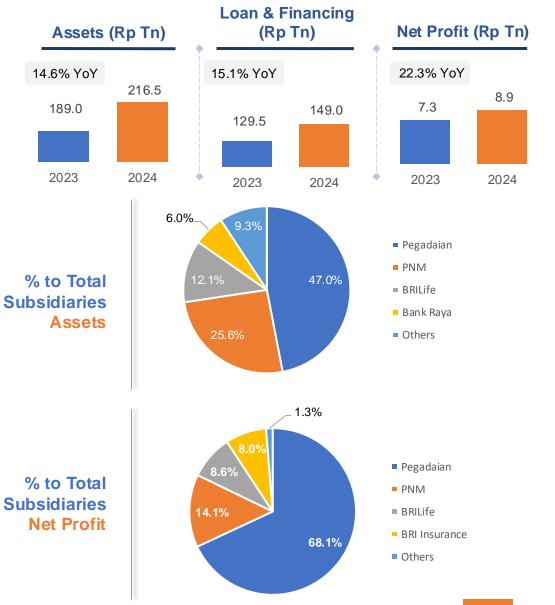

- **Cost of Credit Will Remain Above Historical Average in 2025**
 - Gross cost of credit at FY24 was 3.23%, improving from 3.39% in 9M24, but above our 3% FY24 target. Drivers of the higher CoC were (1) Elevated net downgrades in Micro lending, (2) Delayed Modification Loss impact from Corporate Client Restructuring scheme and (3) Slower loan growth than guidance at 7% YoY.
 - On a positive note, adjusting for the provision overlay, our bank only cost of credit at FY24 was 2.93% and our 4Q24 cost of credit was 2.76%. More importantly, due to strong recoveries, the net cost of credit in 4Q24 decreased QoQ to 0.54% from 0.93% in 3Q24.
 - BRI maintains ample NPL Coverage at 215% and our Loan Loss Reserve is 5.98%, well above the pre-covid level of below 4.5%. We anticipate consolidated gross CoC for FY25 to be 3% 3.2% primarily due to micro portfolio provisions.

Peers' LDR Might Pose a Challenge

- As of most recent data, two of our main peers have LDRs above 90% which could challenge funding costs in FY25. CoF at FY24 was 3.7%, stable on a QoQ basis. We are seeing the macro situation impact our customer base as micro savings growth was only 1.65% YoY. However, the decrease of the BI rate, SRBI issuance and yields in early 2025 could signal the start of a monetary easing cycle that could improve liquidity.
- CASA increased by 313bps to 67.3% at FY24 compared to 3Q24, following the liabilities optimization strategy. Time deposit balances decrease by 8.5% QoQ. We are hopeful that government policies and a conducive economy can support savings account expansion in FY25.

 - a) Priority Sectors (Agribusiness, Livestock, Fishery, and Plantation):
 - KUR terms of max 4x (KUR facility is renewable up to 3x); or
 - Micro/ Small KUR: Max loan ceiling accumulation of Rp400 Mn/ Rp500 Mn, respectively
 - b) Other Sectors:
 - KUR terms of max 2x (KUR facility is renewable once); or
 - Micro/ Small KUR: Max loan ceiling accumulation of Rp200 Mn/ Rp500 Mn, respectively
- 3. Lending rate charged to borrowers:
 - a) KUR Super Micro: 3%
 - b) KUR Small and Micro: Step-up lending rate
 - Initial financing: 6%
 - 1st refinancing: 7%
 - 2nd refinancing: 8%
 - 3rd refinancing: 9%

Government Debt Relief Program (Loan Forgiveness)

Ref. Government Regulation (PP) No. 47/2024

In November 2024, the president signed the Government Regulation regarding Debt Relief . The program is aimed to provide debt relief for customers in MSME to help support this segment. The loan criteria for the debt relief regulation is as follows:

- 1. Loan OS max. Rp 500mn
- 2. Loans have been written off min. 5 years
- 3. Loans are not covered by insurance
- 4. No Collateral
- 5. Loans should have been restructured before written off

The regulation stated that customers benefitted from this program will have their payment status mentioned as part of the Government Debt Relief Program and that banks will have to maintain records of these customers.

Consumers' Protection Regulation

Ref. Financial Service Authority Policy POJK No. 22/2023

The Financial Service Authority (FSA) released new regulation in relation to Consumer and Community Protection in Financial Services Sector to improve consumers' trust toward financial services, as well as to provide development opportunities in a fair, efficient, and transparent manner. The regulation strengthened customer protection principles by Reaffirming rights and obligations of consumers and Financial Business Players (FSBP), and adding Mechanism for collection and collateral withdrawal, among others.

Changes to RRR Incentives

Ref. Bank Indonesia Regulation (PADG) No. 4, 2024

Bank Indonesia provided additional RRR incentives of 100bps, increasing the total limit of RRR incentives from 300bps to 400bps through addition of maximum RRR incentives for Banks which provide financing to certain sectors. As of FY24, our RRR stood at 4%.
